

SESSION 14

Team SCAMPER Product Redesign

Unit 3 · SCAMPER Technique for Innovation

120 minutes · studio · COs 109.3, 109.2

THE ONE IDEA

A redesign is not a new coat of paint. It is deciding what the thing is for, and removing what does not serve that.

WHY IT MATTERS

- 1 The object is a tech product — an app or a website**
Your anchor's front door from Session 4, or a product everyone at the table uses.
- 2 All seven prompts, as a team, silent first**
Same discipline as last session.

WHAT TO DO WITH IT

3 Eliminate carries this session

Look at the board — most abandonment reasons are about too much, not too little.

4 Produce something visible

A drawn screen, not a description.

TODAY YOU WILL

Teams apply SCAMPER to redesign or enhance a tech product (for example, a mobile app or website).

Prescribed syllabus activity

Marathi or Hindi · 60 minutes

TO CLOSE

Pitch

Three minutes. The person, the stuck, the idea, the picture, the ask.

Critique

I like... / I wish... / What if... — the idea, never the person.

Idea log

One page. Silent. Box 4 is the one you read again in week 15.
