

SESSION 08

Collaborative Mind Mapping

Unit 2 · Mind Mapping and Creative Thinking Techniques

120 minutes · studio · COs 109.4, 109.2

THE ONE IDEA

The person who knows least about your business
will draw the branch you cannot see.

WHY IT MATTERS

1

Buzan's group sequence

Individual maps first, silently. Only then a shared map. Reversing the order lets one voice set the BOIs for everyone.

2

Outsiders are the asset

Your teammates have never met your owner. Their ignorance is why they will ask the branch you stopped asking.

WHAT TO DO WITH IT

3

Disagreement is data

Two people putting the same idea on different branches means the structure is not settled — that is worth more than agreement.

4

One scribe, rotating

Everyone talks, one draws, and the drawer changes each round.

TODAY YOU WILL

Your team maps each member's anchor in turn. You are the outsider three times and the owner once.

Marathi or Hindi · 60 minutes

TO CLOSE

Pitch

Three minutes. The person, the stuck, the idea, the picture, the ask.

Critique

I like... / I wish... / What if... — the idea, never the person.

Idea log

One page. Silent. Box 4 is the one you read again in week 15.
