

SESSION 10

Reading a Map — What It Tells You

Unit 2 · Mind Mapping and Creative Thinking Techniques

120 minutes · studio · COs 109.4, 109.2

THE ONE IDEA

A map is a picture of your attention. The empty side of the page is the finding.

WHY IT MATTERS

- 1 Density shows where you have been thinking, not**
where the business needs work.
- 2 A sparse branch is a question, not a gap**
It means you have not looked there.

WHAT TO DO WITH IT

3 **The missing branch is the blind spot — the BOI y**
ou never drew at all.

4 **Buzan's numerical order**
Number your BOIs by importance and the map becomes an agenda.

TODAY YOU WILL

Diagnose your own maps: where has your attention been, and what have you avoided?

Marathi or Hindi · 60 minutes

TO CLOSE

Pitch

Three minutes. The person, the stuck, the idea, the picture, the ask.

Critique

I like... / I wish... / What if... — the idea, never the person.

Idea log

One page. Silent. Box 4 is the one you read again in week 15.
