

SESSION 12

SCAMPER for Product Improvement

Unit 3 · SCAMPER Technique for Innovation

120 minutes · studio · COs 109.3, 109.2

THE ONE IDEA

Most improvements are additions. The best ones are usually subtractions.

WHY IT MATTERS

- 1 The object today is your anchor's own offering —**
the thing they sell, exactly as they sell it now.
- 2 All seven prompts, in order, no skipping**
The prompt you want to skip is the one carrying your blind spot.

WHAT TO DO WITH IT

3 Test against the Session 5 questions

Can the owner do it, this month, with what they have?

4 Eliminate again, harder

What does this business do out of habit rather than need?

TODAY YOU WILL

Run all seven SCAMPER prompts against your anchor's own offering.

Marathi or Hindi · 60 minutes

TO CLOSE

Pitch

Three minutes. The person, the stuck, the idea, the picture, the ask.

Critique

I like... / I wish... / What if... — the idea, never the person.

Idea log

One page. Silent. Box 4 is the one you read again in week 15.
